

Fast and actionable talent insights for critical portfolio talent decisions

Build winning leadership teams with AI insights

Give portfolio companies the talent insights they need to make great hiring decisions and build winning teams.

01

Proven scientific talent assessments

Scientific assessments capture the critical talent data you need to conduct pre- and post-deal team evaluation in just 25 minutes.

02

AI-powered insights, instantly

Transform in-depth talent data into actionable insights for the investment team and portfolio company instantly with Wisnio's AI model.

03

Digital hiring and development tools

Wisnio's hiring and development tools make it easy to integrate the data into your workflow and provide continuous support to portfolio companies.

How it works

Wisnio makes powerful talent data fast and actionable to support business leaders with their most critical people decisions.

Invite team members to complete a 25-min assessment capturing their core values, preferences, and competencies.

Wisnio's AI model analyses the data and helps you identify key strengths and potential talent gaps instantly.

AI-powered workflow tools help to create the reports you need automatically, reducing manual work by up to 70%.

Our platform collects and stores your talent data, giving you proprietary insights for hiring and developing winning teams.

See it in action

Wisnio makes powerful talent data actionable. Discover how by exploring a sample Candidate Profile.

- Automated documentation
- Collaborative platform

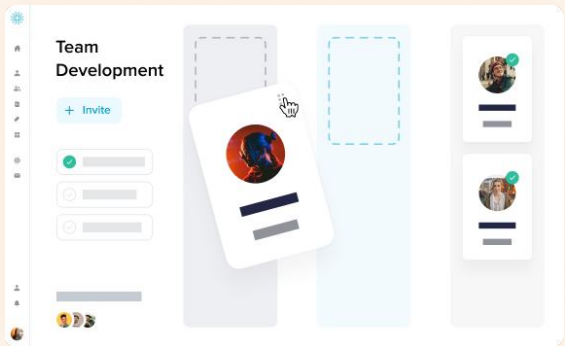

Fast and actionable team assessment

Start with validated scientific assessments to capture core traits of the team. Then, let our AI do the heavy lifting: it quickly translates the data into clear insights, aligning with your value creation plan for smart decision-making.

Scientific C-level hiring toolkit

Wisnio's hiring toolkit combines predefined leadership profiles, structured interview guides, and job analysis tools. Powered by AI, it transforms detailed talent data into actionable steps, making it easy to hire and onboard the best, and build top teams quickly.

Unified talent data platform

Keep all your talent data in one place. From pre-deal assessments to annual leadership reviews, everything on a unified platform. This central view helps you make smarter hiring and investment choices, all with the help of AI.
