

AI-powered tools for executive talent decisions

Simplify complex people decisions

Support business leaders in their most critical talent decisions with AI-powered talent insights

01

Fast, actionable talent assessment

Scientific assessments collect thousands of data points about the team, job and candidates.

02

AI-powered insights

Our AI-powered tools analyse the talent data and make it immediately actionable for critical hiring, succession, and development decisions.

03

Simple, collaborative platform

Reduce manual reporting and collaborate with internal and external stakeholders on one simple and intuitive web platform.

How it works

Wisnio transforms powerful talent data into fast and actionable insights, supporting business leaders in their most critical people decisions

Team members take the Wisnio assessment - the surveys take just 25 minutes.

Wisnio automatically generates the Profiles so that you can get an overall overview of the team in minutes.

Use the AI-powered WisGPT to get actionable advice and make sense of the talent data.

Use the AI-powered workflow tools to reduce your manual work by up to 70%.

See it in action

Wisnio makes powerful talent data actionable. Discover how by exploring an example Candidate Profile.

Scientific Assessments & AI-Powered Insights

Rigorous, scientifically-backed assessments combined with advanced AI algorithms to analyse the data. Leverage our advanced AI tools that transform raw data into actionable insights, simplifying your decision-making process.

Candidate Assessment

Wisnio’s candidate assessment tools help you understand how each candidate would complement the team and fit in with it’s core values. Use the Candidate Profile and personalised interview guide to make structured and objective hiring decisions.

Team development toolkit

Wisnio’s onboarding tools and team development toolkit helps new team members integrate into the team and shape a culture where everyone can perform at their best.

Trusted by the world’s best teams

Tim Robson Managing Partner at H.I. Executive Consulting (HIEC)

Wisnio is one of the most innovative products that I have seen in some time - sophisticated data science built into a simple and intuitive digital user interface. It’s exactly what was missing in the market and is in significant client demand.
